Below Ground Storage Tanks

FOR EFFECTIVE COLLECTION AND CONTAINMENT

Largest below ground storage tanks provide a reliable solution for the collection and retention of:

- **Sewage (cesspool)***
- **Surface water**
- **Veterinary/animal waste**
- **Firefighting reservoirs**
- **Rainwater reservoirs**

QUALITY & RELIABILITY

They are constructed from non-corrosive materials, designed in accordance with BS 6297: 1983. Kingspan Environmental is an accredited company under BS EN ISO 9001:2000 quality management systems - a total approach to quality, ensuring this reliable storage tank can be installed with complete peace of mind for years of trouble free operation. All storage tanks are covered by a 12 month warranty.

Every storage tank is factory tested to ensure that it is watertight and structurally sound.

EASY INSTALLATION & MAINTENANCE

Delivered as a complete unit ready for installation, each storage tank must be installed in a level condition and bedded on, and surrounded with, 225mm thickness of concrete. Full installation instructions are provided with each unit, but are also available on request. A 'high level' alarm is available for monitoring the tank for optimum usage.

LOCKABLE MANHOLE COVER

For added safety, storage tanks can be supplied with a lockable manhole cover.

NATIONWIDE AVAILABILITY

Largest products can be sourced from your local builders merchant or through local pollution control specialists.

* For sewage applications, please consult Kingspan Environmental for advice on tank capacity required.

NOMINAL LITRES	CAPACITY (GALLONS)	LENGTH (L) (MM)	DIAMETER (D) (MM)
18,000	3,960	4,317	2,620
22,000	4,889	5,073	2,620
26,000	5,720	5,837	2,620
34,000	7,480	7,376	2,620
38,000	8,360	8,150	2,620
46,000	10,120	9,684	2,620
54,000	11,880	11,222	2,620
59,000	12,968	11,991	2,620
63,000	13,860	12,760	2,620
71,000	15,620	14,295	2,620
79,000	17,380	15,833	2,620

Invert depths of up to 2.0m available, for deeper inverts please contact our technical sales team.

SPECIALIST APPLICATIONS

Tanks can also be supplied with special linings and can be used to store surface water contaminated with:

- Silage effluent
- Higher octane fuels
- Agricultural/farm waste

Always consult Kingspan Environmental for advice on non-sewage applications.

Please note: These tanks are NOT suitable for the storage of potable drinking water.

OTHER PRODUCTS

Kingspan Environmental manufactures a wide range of pollution control and rainwater harvesting equipment including:

- BioDisc®, Biotec™ and Biosafe Sewage Treatment Plants
- Envirosafe High Effluent Quality Treatment Systems
- Pumpstor Pump Stations
- Stormwater Attenuation Systems
- Septic Tanks
- Grease & Silt Traps
- Oil/Water Separators
- KingspanWater Rainwater Harvesting Systems
