

# 3P Water Butt “Helena”

# Helena

## 3P Water Butt Helena

The Helena amphora design brings a touch of ancient Greece to the garden. This amphora water butt has been crafted to give a realistic distressed detailed finish, and like all 3P tanks it's made from weather and UV resistant polyethylene. Features include brass threaded  $\frac{3}{4}$ " connection points for a screw in tap on the front and back, and side outlet for draining or connecting to another tank.
