

The Fuelpod Versatile range has been designed for multi purpose applications.

Available Sizes

- ✓ FPV-2500L
- ✓ FPV-5500L
- ✓ FPV-9000L
- ✓ FPV-11000L
- ✓ FPV-16000L
- ✓ FPV-22000L

Enhanced Design Features

Maintenance & Environment

The FuelPod is comprised of an innovative double wall tank design which comes with a removable flow forge spill tray floor. It is constructed with a raised pedestrian door to allow for seepage control and employs a man-way cover conveniently located on the rooftop to provide easy access for cleaning, maintenance and inspections.

Safety & Security

The FuelPod Versatile Bunded Tank has a walk in pedestrian door with a secure 3 point locking system, ensuring it is static and safe during fuelling.

Dispensing & Accessibility

The FuelPod Bunded Tank Range has an easily accessible camlock fill pipe connection point conveniently located just inside the pedestrian door. The Range also has an ingenious bracket system that houses 4m to 6m standard hose reels and dispensing nozzles with either analog or digital gauges. An optional 8m to 15m retractable hose is also available.

Finally the FuelPod Bunded Tanks can be conveniently adapted with a fuel management system.

Design Innovation

Take a look inside

The innovative Fuelpod versatile range of fuel storage tanks comprises a double wall tank in tank design and has an extra large equipment compartment area located behind a walk in pedestrian access door with 3 point locking system for extra security.

The range has been designed with an Internal over fill protection valve and comes complete with four ISO lifting eyes providing convenient maneuverability and is finished off with a sturdy integrated frame design, allowing it to be the tank of choice for discerning rental companies' worldwide.

Superior Features

4 x lifting hooks for easy lifting. Easy access to the inner tank. External ports and fittings.

Internal ladder for ease of access for routine maintenance. Submersible shut off valve.

Flow forge floor for spillage and leak protection. Multiple ports and fitting options.

Optional Accessories

Fitted with a Piusi fuel management system, Donaldson inline portial filter, and 12M retractable hose reel.

Fitted with a Panther 56 Piusi pump kit, which includes a 4M hose and dispensing nozzle.

3 point lockable door, complete with a 3" fill pipe and Camlock fitting as standard.

versatile

Model (FPV-11000L)

The FuelPod Versatile FPV-11000L Bunded Tank has been designed with safety in mind.

It safely secures the storage of bulk fuels and is designed for static application.

Specifications

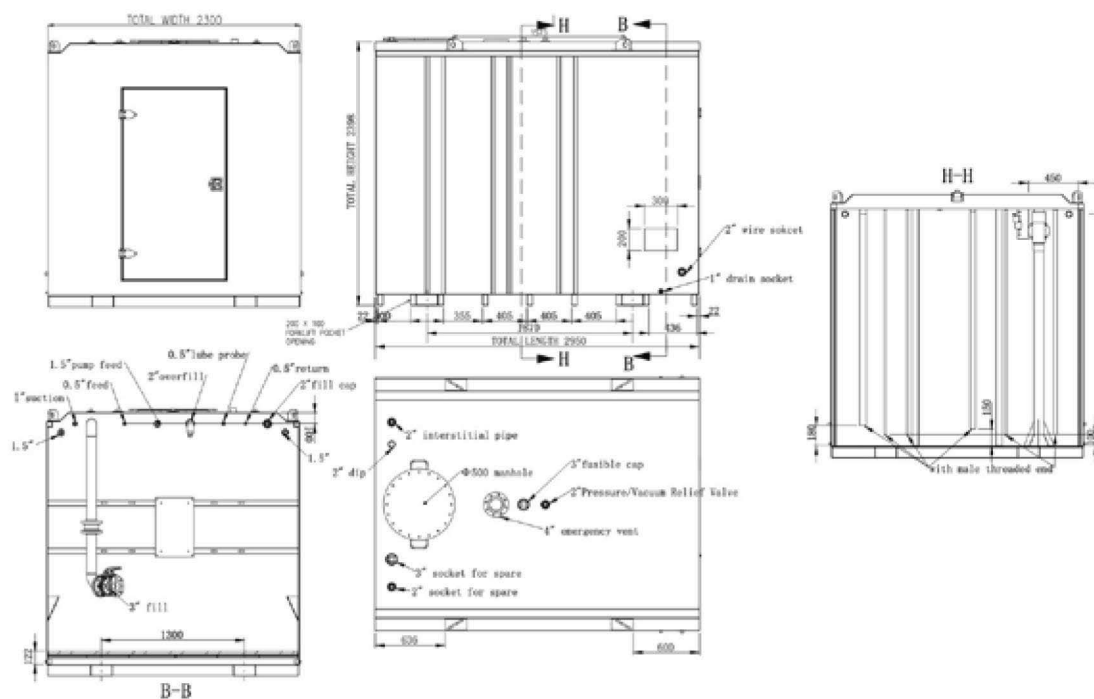

Metric

Capacity	11000 Litres
Length	2950 mm
Width	2300 mm
Height	2398 mm
Cabinet Height	688 mm
Tank Material	S235 (3 mm)
Mass (empty)	2544 kg
Mass (with fuel)	11949 kg

Approvals and Certifications

UK & Europe

- ✓ Static Tank Design
- ✓ 110% Bunded Tank
- ✓ Adhering to BS799 Part 5 Standard
- ✓ PG 2 (Protection Pollution Guidelines)
- ✓ Coded Welding Standards UK and European

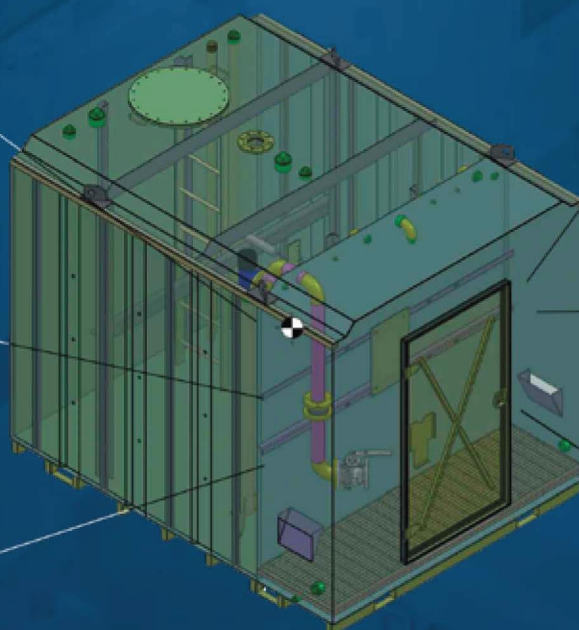

DISPENSING NOZZLE VARIATIONS

HOSES WITH ISO QUICK RELEASE COUPLERS

UP TO 15M / 50FT RETRACTABLE HOSE REELS

(FMS) FUEL MANAGEMENT SYSTEM

ENGINE DRIVEN OR ELECTRIC PUMPS

IN LINE PARTIAL SEPARATION FILTERS
