

CEMO DT MOBIL EASY

Innovative diesel filling stations offering a wealth of useful features.

Diesel

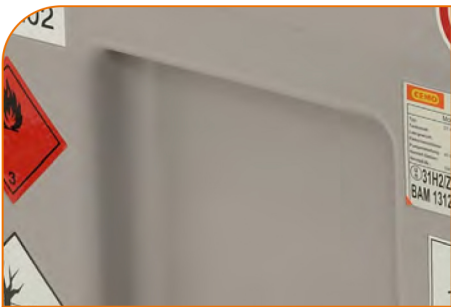

built-in hose brackets

The built-in hose brackets keep things tidy until you next need to fill up.

adjustable lid mount

The adjustable lid mount allows it to be installed either on the left or the right for the best possible access (460 L and 600 L).

built-in ergonomic carry handles

The built-in carry handles enable the equipment to be handled easily during loading.

Video
DT-Mobil EASY

dispensing hose can be isolated

The isolation valve enables the container to be sealed off completely, thus adding to safety during transportation (125 L, 200 L, 460 L, 600 L, 850/100 L and 980 L).

integral forklift pockets

The integral forklift pockets make handling easier when the tank is full.

recesses for ratchet tie-down

Integral recesses (125 L, 200 L 210 L and 440 L) and lashing eyes (460 L, 600 L, 850 L/ 100 L and 980 L) to allow immobilisation with a ratchet lashing strap during transportation.

folding crane eye and lashing eyes

The folding crane and lashing eyes (460 L, 600 L, 850 L/ 100 L and 980 L) make it easier to secure the load in the prescribed manner, and serve at the same time as fastening eyes if the device is lifted by crane.

CEMO DT MOBIL EASY 125 L and 210 L PG 4 ACCORDING TO ADR 1.1.3.1 C)

DT-Mobil EASY

Certified for transport for immediate consumption according to ADR 1.1.3.1 c)

Container:
