Kingspan

Klargester BioDisc® Domestic Sewage Treatment Plant

Support from start to finish from our in-house team

Step 1

Free survey

Contact us and we'll arrange for a local Klargester Area Sales Manager to visit your home for a full site assessment, should you need it.

Step 2

Choice

Our professional team will work with you to help choose the correct BioDisc model.

Step 3

Set up

We offer full commissioning and activation for your BioDisc, ensuring it runs optimally right from the start.

Step 4

Service

We offer tailored service and maintenance packages for your BioDisc treatment plant.

*Dimensions illustrated here are applicable to the BA and BB models only.

Choosing the right sewage treatment plant for your home with Klargester

Klargester provides relevant advice and support throughout the wastewater treatment purchasing process based on our in-depth local knowledge and expertise. We offer comprehensive free site visits, professional installation options (optional extra) and aftersales care through our national network of accredited installers and engineers.

BioDisc is Third Party Tested to EN 12566-3 (GB & NI) and SR66:2015(IE)

I'm a homeowner - what do I need to consider before choosing my treatment plant?

The Klargester BioDisc sewage treatment system is available to suit all types of domestic applications, catering for single and multi-house properties. BioDisc is engineered to treat wastewater to a very high standard and offers affordable lifetime costs compared to other treatment processes.

Our team will guide you through:

- Size of treatment plant required
- Ground conditions around the plant
- Wastewater discharge options
- Invert level options

Why BioDisc®?

With strict Environment Agency standards, it's more important than ever to choose a sewage treatment plant that delivers peace of mind with reliable treatment of wastewater.

The Klargester BioDisc is built on the back of 70 years' experience and offers the following benefits:

7 YEAR WARRANTY**

Product benefits

Affordable lifetime running costs

Trusted and reliable performance

Odour free

Silent Operation

BioDisc is one of the few systems in the UK which doesn't make use of an air pump (used in an 'aerated' system) which means minimal odour being released. This is verified by an independent odour sampling report (available on request).

At a recent site, our team concluded that the domestic BioDisc has the same level of noise as the average ambient background noise outside (between 40-55 decibels).*

Domestic BioDisc
Decibel equivalent to a modern refrigerator

Typical aerated system
Decibel equivalent to a coffee grinder machine

* This is a representative figure based on a Large BioDisc plant.

Register your guarantee online at kingspan.co.uk/klargesterguarantee to arrange your service and enjoy an extended seven year guarantee period.**
** For BA and BB BioDisc models only, when registered online - terms and conditions apply. Visit: kingspan.com/gb/en-gb/products/wastewater-management/warranty-terms

How it works

Silent operation	Odour Free	Trusted and reliable performance

Technical Specification

Unit Reference	BA	BC
Population Equivalent (Std Flow)	6	12
Maximum Daily BOD (kg)	0.36	0.72
Maximum Daily Flow (m3)	1.2	2.4
Ø/Width (mm)	1995	2450
Length (mm)	-	-
Inlet Invert depth (mm)	450/750/1250	600/1100
Depth Below Inlet Invert (mm)	1400	1820
Outlet Invert Depth (mm)	1315	1735
Overall Height (mm)	2160/2460/2960	2825/3325
Height to Rim of Cover (mm)	1945/2245/2745	2485/2985
Empty Weight (kg)	310/325/380	650/750
Standard Power Supply	1 phase	1 phase
Motor Rating - 1 Phase (Watts)	50	75
Full Load Current 1 Phase (amps)	0.51	1,1
Optional Power Supply	3 phase	3 phase
Motor Rating - 3 Phase (Watts)	N/A	90
Full Load Current 3 Phase (amps)	N/A	0.38
Sludge Return Pump Rating (watts)	250	250

Invert level options

Three standard drain invert level options are available from stock to match the site topography and where applicable, minimise the excavation depth. The BA, BB and BA-X models are available with an integral pump to move the effluent from the point of treatment, if site level demands.

Environment Agency regulations

As an off-mains homeowner, you must comply with the General Binding Rules by ensuring your treatment system is maintained properly and does not cause pollution. These rules state that you must arrange regular maintenance for your system, via a trusted service provider. Kingspan Service can help with servicing and alarm packages – email helpingyou@kingspan.com.

Control panel and beacon featuring alarm* and digital display to signal that your system is working optimally (beacon and alarm optional extras).

SmartServ Pro

Ask us about our SmartServ Pro remote monitoring solution (optional extra). With early fault detection, SmartServ Pro lets you know when your system needs serviced, giving you peace of mind. Find out more at helpingyou@kingspan.com

Integrated Pump System also available (for pumped systems only). Our technical team will guide you through the best options for your site.

Book your free site visit from our in-house Klargester team at klargester@kingspan.com or visit klargester.co.uk

Protect your investment with our Service and Maintenance Plans

We recommend that you service your BioDisc sewage treatment plant **once a year**. Under Environment Agency regulations, it's now your responsibility to ensure smooth running of your plant.

Our in-house Service department offer a range of service packages including Gold, Silver and Bronze

to cater for all homeowners' needs.

To find out more about how you could benefit from a tailored service package from Kingspan, call us on **+44 (0)28 3026 6799 (NI)** or **0818 544 500 (ROI)** or email helpingyou@kingspan.com
