# FOOT VALVE

## FEATURES

- HEAVY DUTY
- STURDY STRUCTURE
- LOW PRESSURE DROP
- ANTI-SHOCK MATERIALS

The FOOT VALVE designed and engineered by PIUSI is a new concept of valve for fuel suction hoses on machinery. It is fitted with a mesh filter for diesel fuel residues, anti-shock materials to avoid damage caused by dropping and, thus, a low dropping pressure. The quick locking/unlocking and the clear indications of opening and closing complete its main features.

## PERFORMANCE

**125 $\mu$**

FILTERING CAPACITY

**1"-3/4"**

**BPS**
