

STURDY 850lt Water Tank

Introducing The New STURDY 850lt Water Tank.

Product Code
456-A

DIMENSIONS

Product Features/Specifications

- The Sturdy 850lt Water Tank is WRC approved for the storage of potable water.
- The tank is ideal for all types of industry, from car washes, golf courses, hotels, farms and also areas prone to low water pressure.
- The Tank is manufactured from strong, durable, compounded UV stabilised medium density polyethylene which will never rust, fade or require painting.
- The 850lt Tank should be completely supported underneath. A concrete base or concrete lintels are ideal and should protrude at least 2 inches past the tank on all sides.
- The tank is moulded with integral horizontal strengthening supports. This give huge strength to the tank.
- The 200mm Screw Type Lid is fitted as standard. All other fittings are optional extras.
- Other fittings such as drainage bungs, taps and non return valves can be fitted upon request and at an extra cost. Fittings are available from 1" to 4".
- By interconnecting pipework you can create a bank of storage tanks to meet your capacity requirements.
