

## BUNKER STORAGE

# Bunker Storage

Harlequin bunker storage products are available in four varieties - coal bunkers, salt/grit bins, garage/garden tidy bins and the all new SmartBunker, designed to store and dispense animal feed. There are a number of sizes available in each range and colour options are dependent on product type.

### Coal Bunkers

Tough, durable and lightweight, Harlequin coal bunkers provide compact and weatherproof storage for solid fuel in a choice of useful capacities. Tried, tested and trusted for over 30 years, Harlequin coal bunkers are the preferred choice of homeowners and solid fuel distributors throughout the United Kingdom and Republic of Ireland.

### Grit Bunkers

Robust, distinctive, highly visible and easy to use, Harlequin grit bunkers are ideal for the safe and secure storage of road salt. Rotationally moulded from premium grade Medium Density Polyethylene (MDPE), Harlequin grit bunkers have been proven in the harshest conditions and operational extremes.

### Garage Tidy Bins

This practical and cost effective range of garage tidy bin offers storage solutions for garages or sheds of any size. Ideal for storing tools, hobby equipment or household items, these bins will keep contents safe and dry. Also ideal for stacking when empty - giving you more room for storage!

### Garden Tidy Bins

Created in a garden-friendly shade of green, this wonderfully practical garden tidy is ideal for storing your gardening equipment or garden waste. Designed to offer an aesthetically pleasing garden storage alternative, Harlequin Garden Tidy Bins are ideal and indeed an essential for any gardening enthusiast!
